## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1, 3 and 6 – 16 are allowed.

The following is an examiner's statement of reasons for allowance:

- The references of the Prior Art of record fail to teach, or suggest any obvious combination of the limitations discussed in the previous Office Action mailed on September 7, 2004, and further comprising the limitations of **(With respect to claim 1)** a magnetic pole position abnormality detector that determines that the feed back detector is abnormal when an absolute value of the difference between the detected magnetic pole position and the estimated magnetic pole position is larger than a predetermined value; nor **(With respect to claim 11)** the step of determining that the feed back detector is abnormal when an absolute value of the difference between the detected magnetic pole position and the estimated magnetic pole position is larger than a predetermined value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
